## ASSIGNMENT

**Q. Create following table using SQL statements.**

**Client table**

**Ans:**

```
create database my_db;

show databases;

use my_db;

create table clienttable(
    client_no int primary key,
    name varchar(20) not null,
    city varchar(50) not null,
    pin_no varchar(6),
    mob char(10) unique not null);

show tables;

describe clienttable;

select * from clienttable
```
